

General information:

Category : Building plots
Type : For sale
Square meters : 1780

Description:

Premantura " building plot with sea view A building plot of 1,780 sqm is for sale in an attractive location in Premantura, offering a beautiful sea view. According to the existing building possibilities, the land is suitable for the construction of two buildings, each with three residential units, making it an interesting opportunity for investment in tourist rentals or for the development of private residential units. The access road needs to be arranged.
